Agency profile

The "Advertising with a spark" headline stands for the method the agency is developing each communication project such as all the efforts to convey towards a "spark-to-life" approach to the communication situation assigned by our clients.

The services are provided via dedicated Project Managers, therefore the agency is endorsing its autonomy and unique responsibility over the assigned projects.

The agency is applying day-by-day "forward integration policies" in connection with its clients such as include client's key decision people into the project team, and "backward integration policies" concerning its partnerships with chosen suppliers in various fields.

Heat Advertising's goal is to provide for the assigned projects outputs [SCF policy] that have to be:

- simple
- creative
- functional

Heat Advertising is a matrix management structure focusing on projects which are completed via assigned teams (functional or cross-functional).

The approach to given projects is: Strategic planning, Creative thinking, Effective budgeting & Risk evaluation, Development via ATL, via BTL and via PR.
